Hi Kasper, I have a larger room with a single bed available in Norwood as well. It's about a five minute walk to the purple line which takes you to downtown. I can accept you at this listing or at the other one at the same cost if you would like a large larger room.

I'll send the Norwood listing here and you can let me know which one you would like

hi, can I have the addresses of both so I could compare which suits my plans better?

Friday

Unfortunately, Airbnb does not allow that. I cannot give the address before you book. They will block it. If you want to give me your destinations, I can map before you and let you know.

Or I can accept you on this listing and then I can send you the information. But that means you would have a confirmed reservation but I can always switch you to the other listing
